Coles Turnpike Tree Farm is owned and operated by Gary Coles. The name of the farm comes from the history of the land as the Catskill Turnpike Toll Road went through the property. This road was the major road west in the 1700's and early 1800's before the Erie Canal was built.

Each spring 2400 taps are drilled into Sugar Maple trees on the 400 acre farm. During late Feburary to first of April when the weather is right with freezing nights and warm days, the Maple sap flows from the trees to tanks in 20 miles of plastic tubing. The sap is boiled by oil fired evaporator to remove about 50 to 60 gallons of water to make 1 gallon of Pure Maple Syrup. Visitors are welcome at the sugarhouse during sugaring season in the spring.

Maple Syrup Grades

New York Grade A Pure Maple Syrup by weight must contain no less than 66 percent sugar and is classified according to its color. The darker the syrup, the stronger the maple taste. (All grades made to same standards and are Grade A Syrup.)

Golden Color– Delicate Taste - Pale Golden color with mild and delicate maple flavor. (Old Light Grade)

Amber Color - Rich Taste - Tawny Amber color syrup with rich maple flavor. This is the very popular syrup for table use. (Old Medium Grade)

Dark Color—Robust Taste - Dark Bronze color with full-bodied maple flavor that prefered by many.

Maple Molded Sugar - Made by boiling down pure maple syrup, stiring it as it cools and pouring into molds for harding.

Maple Cream - A spread made by boiling pure maple syrup to a lower temperature than sugar, cooling and then stiring.

Granulated Maple Sugar - Maple Syrup made into granulated sugar that can be used in place of cane sugar. Use as a maple flavored sweetener .
